Prizegiving Ceremony: A Celebration of Excellence

This week, Holy Family College proudly hosted our annual Prizegiving Ceremonies for both the Primary and High School, celebrating the remarkable achievements of our learners in academics, sport, and culture. The two separate ceremonies were a wonderful occasion to recognise the dedication, perseverance, and talent of our learners, as well as the invaluable support of educators and parents.

The ceremonies were made even more special by the incredible performances from our talented learners. In the Primary School Prizegiving, the audience was treated to the rhythmic and vibrant sounds of our Marimba Band, while the High School Prizegiving featured a moving performances by the school choir, showcasing the musical and artistic excellence within our school community.

A particular highlight of the High School Prizegiving was the awarding of the prestigious **Quid Retribuam Blazer (Cum Laude)** to **Thoriso Mphele** for her outstanding achievements in soccer. Thoriso has excelled both within our school and beyond, making a name for herself in the **JWV League** and earning the honour of representing the **U-17 South African National Women's Football Team**. This recognition is a testament to her dedication, discipline, and unwavering commitment to her passion.

Thoriso's journey is an inspiration to all – her success serves as a powerful reminder that with hard work, perseverance, and belief in oneself, dreams can indeed become reality. She has shown that talent, when nurtured with determination and guided by strong values, can open doors to incredible opportunities. To our learners, let her story be a motivation: whether in academics, sports, or the arts, your dedication and resilience will pave the way for success.

Success is never achieved alone. Behind every award, there is a story of late nights of study, many sessions of training, and the unwavering encouragement from educators and families. Prizegiving is not just about the top achievers—it is a celebration of growth, effort, and the spirit of excellence that drives every learner to do their best.

To our learners, whether you walked away with a trophy or simply with the knowledge that you gave your best this year, know that your journey towards success is ongoing. To our educators, your guidance shapes futures, and to our parents, your support is the foundation of every accomplishment.

Congratulations to all our learners – we are immensely proud of you! Keep striving, keep believing, and keep reaching for greatness.

PRIMARY SCHOOL LIFE

Our Primary School Nature Navigators were hard at work this week. Watch this space in weeks to come for more news.

Grade 5s Get Hands-On in isiZulu

Our Grade 5 learners had a fun and interactive isiZulu lesson this week as they prepared their own sandwiches while learning relevant vocabulary and instructions in isiZulu. This practical activity reinforced language skills in an engaging way, making learning both enjoyable and memorable.

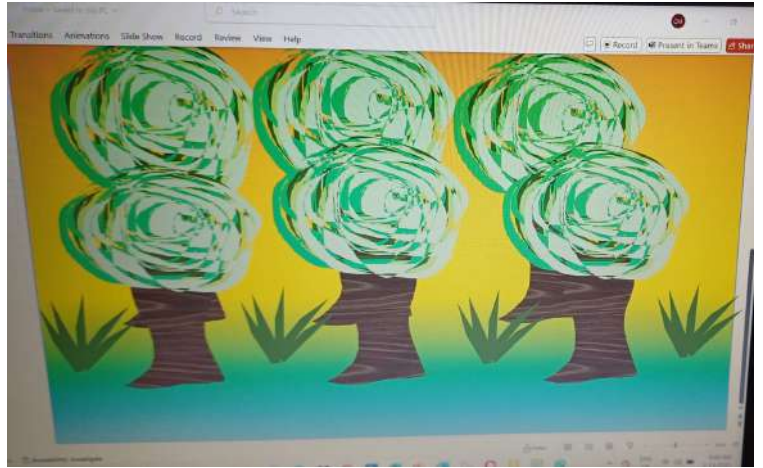

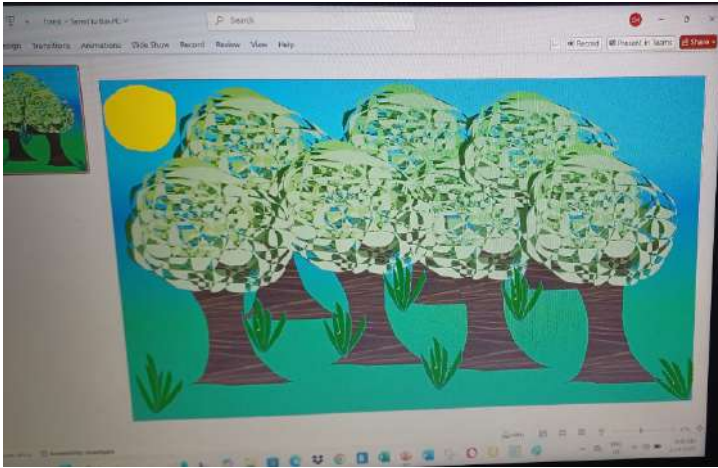

The Magic of PowerPoint

Grade 4 and 5 learners explored the creative side of PowerPoint, developing essential digital skills.

Grade 4s designed themed party invitations, learning to insert textboxes, download and upload images, and structure information visually. This hands-on activity combined creativity with technology, making learning fun and practical.

Grade 5s took on a unique challenge – creating a forest landscape using only the scribble tool, paintbrushes, and gradients, without the shape tool. This encouraged problem-solving, artistic expression, and innovative thinking.

These activities showcased how PowerPoint is more than just a presentation tool – it's a gateway to creativity, design, and digital mastery!

**School Closes for the Term 1 Mid-Term break at 12h00 on Thursday, 20 February 2025.
No Aftercare service.**

School returns on Tuesday, 25 February 2025.

Mid- term reports will be released to all learners on the D6 Communicator if it is updated correctly. See below how to update correctly.

Retreat Grade 10

Gr 10s spent the day on retreat today. Walking with their God: they reflected on the wonder of God's nature, they reflected on what they were thankful to God for during the last year and then asked God's graces for the year ahead.

The Grade 10's meditated on the scripture passage and ended with a shared lunch.

PERSONALISED HOUSE T SHIRTS ORDER TODAY

High School learners are expected to order their personalised house T-shirts from school at **R90** a t-shirt.

Each t-shirt will have the learners name and school badge on the t-shirt.

Orders must be in by close of mid-term.

SPORTS COLLAGE for the WEEK

Grade 11 Life Sciences: practical lesson

Our Grade 11 Life Sciences learners got hands-on with chicken wings—not for lunch, but for science! In a fascinating dissection lesson, they explored muscles, tendons, and ligaments, gaining a deeper understanding of movement and anatomy.

There were a few hungry glances, but instead of tucking in, learners carefully identified bone structures and muscle groups—a far less appetising but highly educational experience! This practical lesson brought biology to life in a memorable (and

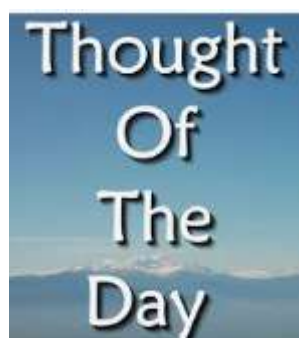

slightly mouth-watering) way.

Well done to our budding scientists—though next time, they might prefer their wings grilled and served with chips from the tuckshop!

#LOVE

Love is a verb, not a noun.

Love involves caring,
acting, showing up.

It's not just words,
an emoji and then
going about minding

Pastor's Corner for the Sixth Sunday in Ordinary Time, Year C, by Fr. Isaac J. Fernandes, SJ

16th February 2025

In the wake of President Trump's withdrawal of funding to any program that is not aligned with his America First agenda, many reactions on social media in Africa have pointed out that it is high time that African countries learn to fend for themselves. The funding that USAID formerly provided in many African countries for the purchase of critical medications such as ARVs served to mask the failure of many African governments to provide affordable healthcare for their citizens. It is time, clamour certain pundits on social media, that African governments step up to the plate and prove there are worthy of the trust that people have placed in them by starting to provide the essential services to their citizens hitherto assured by NGOs and foreign governments.

There is certainly a lot of truth to this view and citizens must certainly learn to start holding their governments accountable for the delivery of essential services. In one sense, these reactions on social media are right to highlight a certain complacency that has settled in our minds when we expect American tax-payer dollars to solve the health crises of our African continent. However, there is something distressing when the correction of this complacency takes the form of a slogan "Zambia first" or "South Africa first," in imitation of President Trump's "America first."

In many different countries we are witnessing a rejection of the values of the liberal left that espouses a vision of humanity as gathered into one global village. The universalism of this vision that first found its purchase in the League of Nations and later in the United Nations is coming under increasing attack as countries withdraw into their shells and are increasing seduced by the far right's nationalistic agenda. America's withdrawal from the WHO and the Paris climate agreement threatens the cohesion of the global order. While we can certainly criticize the global order and point to many weaknesses in the running of the global order under the hegemony of the most powerful nations on earth, our Christian hope should not permit us to give up on the dream that the global order represents.

This dream is God's dream to gather humanity and indeed the whole of creation into one united family (cf. 2 Cor. 15: 20-28). While we must recognize that all human attempts at creating a global human community of justice and solidarity will be flawed and partial at best, we need to remain committed to these attempts in order to ensure the common good of all humanity and indeed of all creation. Our fates are bound together inextricably such that no one nation can ensure the good of its citizens without reference to the actions and priorities of the other nations on earth. This truth of this assertion became nowhere clearer than when we faced the COVID pandemic, which makes America's withdrawal from institutions that ensure this common good, like the WHO and the Paris Climate Agreement so reprehensible. If these actions of America should lead to a more widespread exodus of nations from a commitment to the common good of humanity and our planet in order to give priority instead to their own national interests, we will have indeed regressed as a human race. As Christians we must refuse to be seduced by such nationalism and remain committed to building a just and humane global order.
